

Mr. Newman,

8/24/06

Since we bought the aynuator in 1996, the air in our home has never been healthier. We notice a difference during the fall + winter months especially, when colds are going around. We have fewer colds, and they don't last as long. Our asthma + allergy symptoms are also greatly improved. Our home environment has never felt so good! Thank you for this wonderful product!
