

## HEARTLAND BOATING

### A YEAR AND STILL GOING STRONG

Just about one year ago I saw an ad in your magazine (Dec./Jan. . . . .  
Please note I save all your magazines in a binder. It makes great reading and sits on the  
Table in the Salon for all our fellow boaters to read some good stuff.  
The bottom line is about the ad and it was by Quantum Pure Aire located in R.I.. We had  
a major problem on our boat and since we live aboard most of the year it was a year  
round problem of mold in the living space and odors from the bilge, some diesel but  
mostly holding tank odors. We took a shot and orderd the Bilge Buster and the Cabin  
Aire units. The Bilge Buster rid the boat of holding tank odor in aprox 8 hours and killed  
the mold and all the odors in the living space in less time than that we think but since the  
odor from the holding tank was so strong it took a while to get a total clean boat. I will  
say that in aprox. 12 hours we had a boat with no odors and it even took the odor out of  
all the furniture and carpet. We never say good things about anything but after a year we  
Think you should know the odor has never come back, no mold either. Fantastic  
products.

Thank you,

Judge Frank Turner

Here come da Judge

Savanna, Ga.

I am listing Quantums phone number and the name of the Sales Manager who was so  
helpful. Barry Newman, 800-966-5575 ext. 104

Note:

They have just moved to larger quarters in the summer and I needed to talk to them about  
a friend who wanted to buy some units from them so this phone is up to date.
