RE 400 Bilge Buster  
Repair # RA 1219

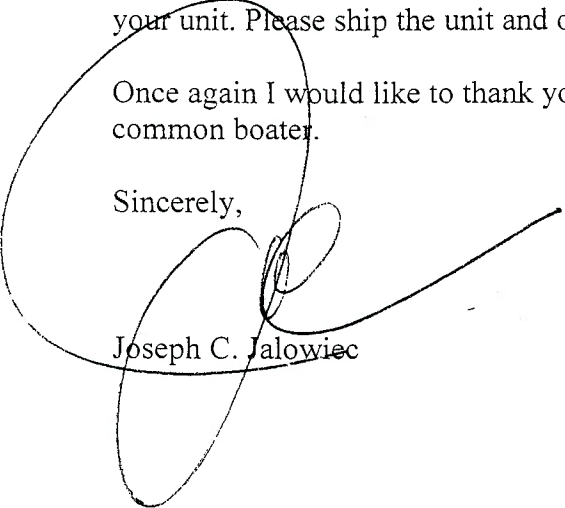

Dear Barry,

Per our conversation of today please find enclosed my 400 Bilge Buster for retrofit work.

As I had mentioned to you, having it in the bilge in our 41 Viking Sportfish has turned our boat into a new boat. All of the odors have disappeared totally and I could not imagine being without your unit. Please ship the unit and one additional replacement module to the above address.

Once again I would like to thank you for producing this unit and making it available to the common boater.

Sincerely,

  
Joseph C. Jalowiec
