Barry Newman
Director of Sales
Quantum Pure Air Products
333 Strawberry Field Rd.
Warwick, RI 02886-2459

Dear Barry,

My wife and I purchased a 34' Silverton convertible yacht two years ago. It was very well maintained, but there was a smell coming from the forward bilge area. My wife called the boat the "stink boat". She is very sensitive to odors. I went to the internet and typed in "bilge odors" into a search engine. Your company, Quantum Pure Air Products came up. I found your device called the "Bilge Buster". I read up on it, and the technology made perfect sense. We purchased the "Bilge Buster", installed it and almost immediately the odors went away. People who came onboard were amazed how fresh our boat smelled. In fact, even our cloths smelled fresh where other people's boats and cloths smelled moldy. We highly recommend the "Bilge Buster" to anyone who experiences bilge odors. As you know, stagnate water in the bilge is a fact of life on many larger boats. The "Bilge Buster" truly eliminates foul odors coming from the bilge area.

Sincerely,

Kenneth & Debra Hilt
