Subject: Solon Mate

Quantum Pure Aire,

I am a boat owner and had mildew growing in an enclosed area where no air was circulating and I was telling a friend of mine who loaned me his Solon Mate M#SMS-400 S#03-27471 and within several hours my mildew problem was solved. Do you still carry this model? What is the cost? Because I am traveling in the Bahamas and won't be back in the states for a while, how do I place an order when I get back home? Thank you for your attention on this.

Sincerely,
Roger Adams
